Did you know that the average person spends 2 hours a day on their phone? Or that the human body contains enough iron to make a nail? These are just a few of the many fascinating facts that you'll find in this book.

So why do these facts matter? Well, they don't really. But that's what makes them so fascinating. They're the kind of facts that you'll share with your friends at parties, or that you'll use to impress your boss at work. They're

the kind of facts that will make you seem like the smartest person in the room.

Even if you don't care about any of the facts in this book, you'll still enjoy reading it. It's full of humor, wit, and wisdom. It's the perfect book to read on a rainy day, or to take with you on your next road trip.

**Here are just a few of the fascinating facts that you'll find in this book:**

- The average person spends 2 hours a day on their phone.
- The human body contains enough iron to make a nail.
- The world's population is about 8 billion people.
- The Earth is about 4.5 billion years old.
- The sun is about 150 million kilometers away from Earth.
- The speed of light is about 300,000 kilometers per second.
- The human brain has about 100 billion neurons.
- The average person dreams about 4 times a night.
- The human heart beats about 100,000 times a day.
- The human body contains about 60% water.

And that's just the tip of the iceberg! The Most Fascinating Facts That Don't Really Matter is full of even more mind-blowing facts that will make you laugh, think, and question everything you know.
